

Europe born global cybersecurity champions

We partner with European Founders to build and scale global cybersecurity champions.

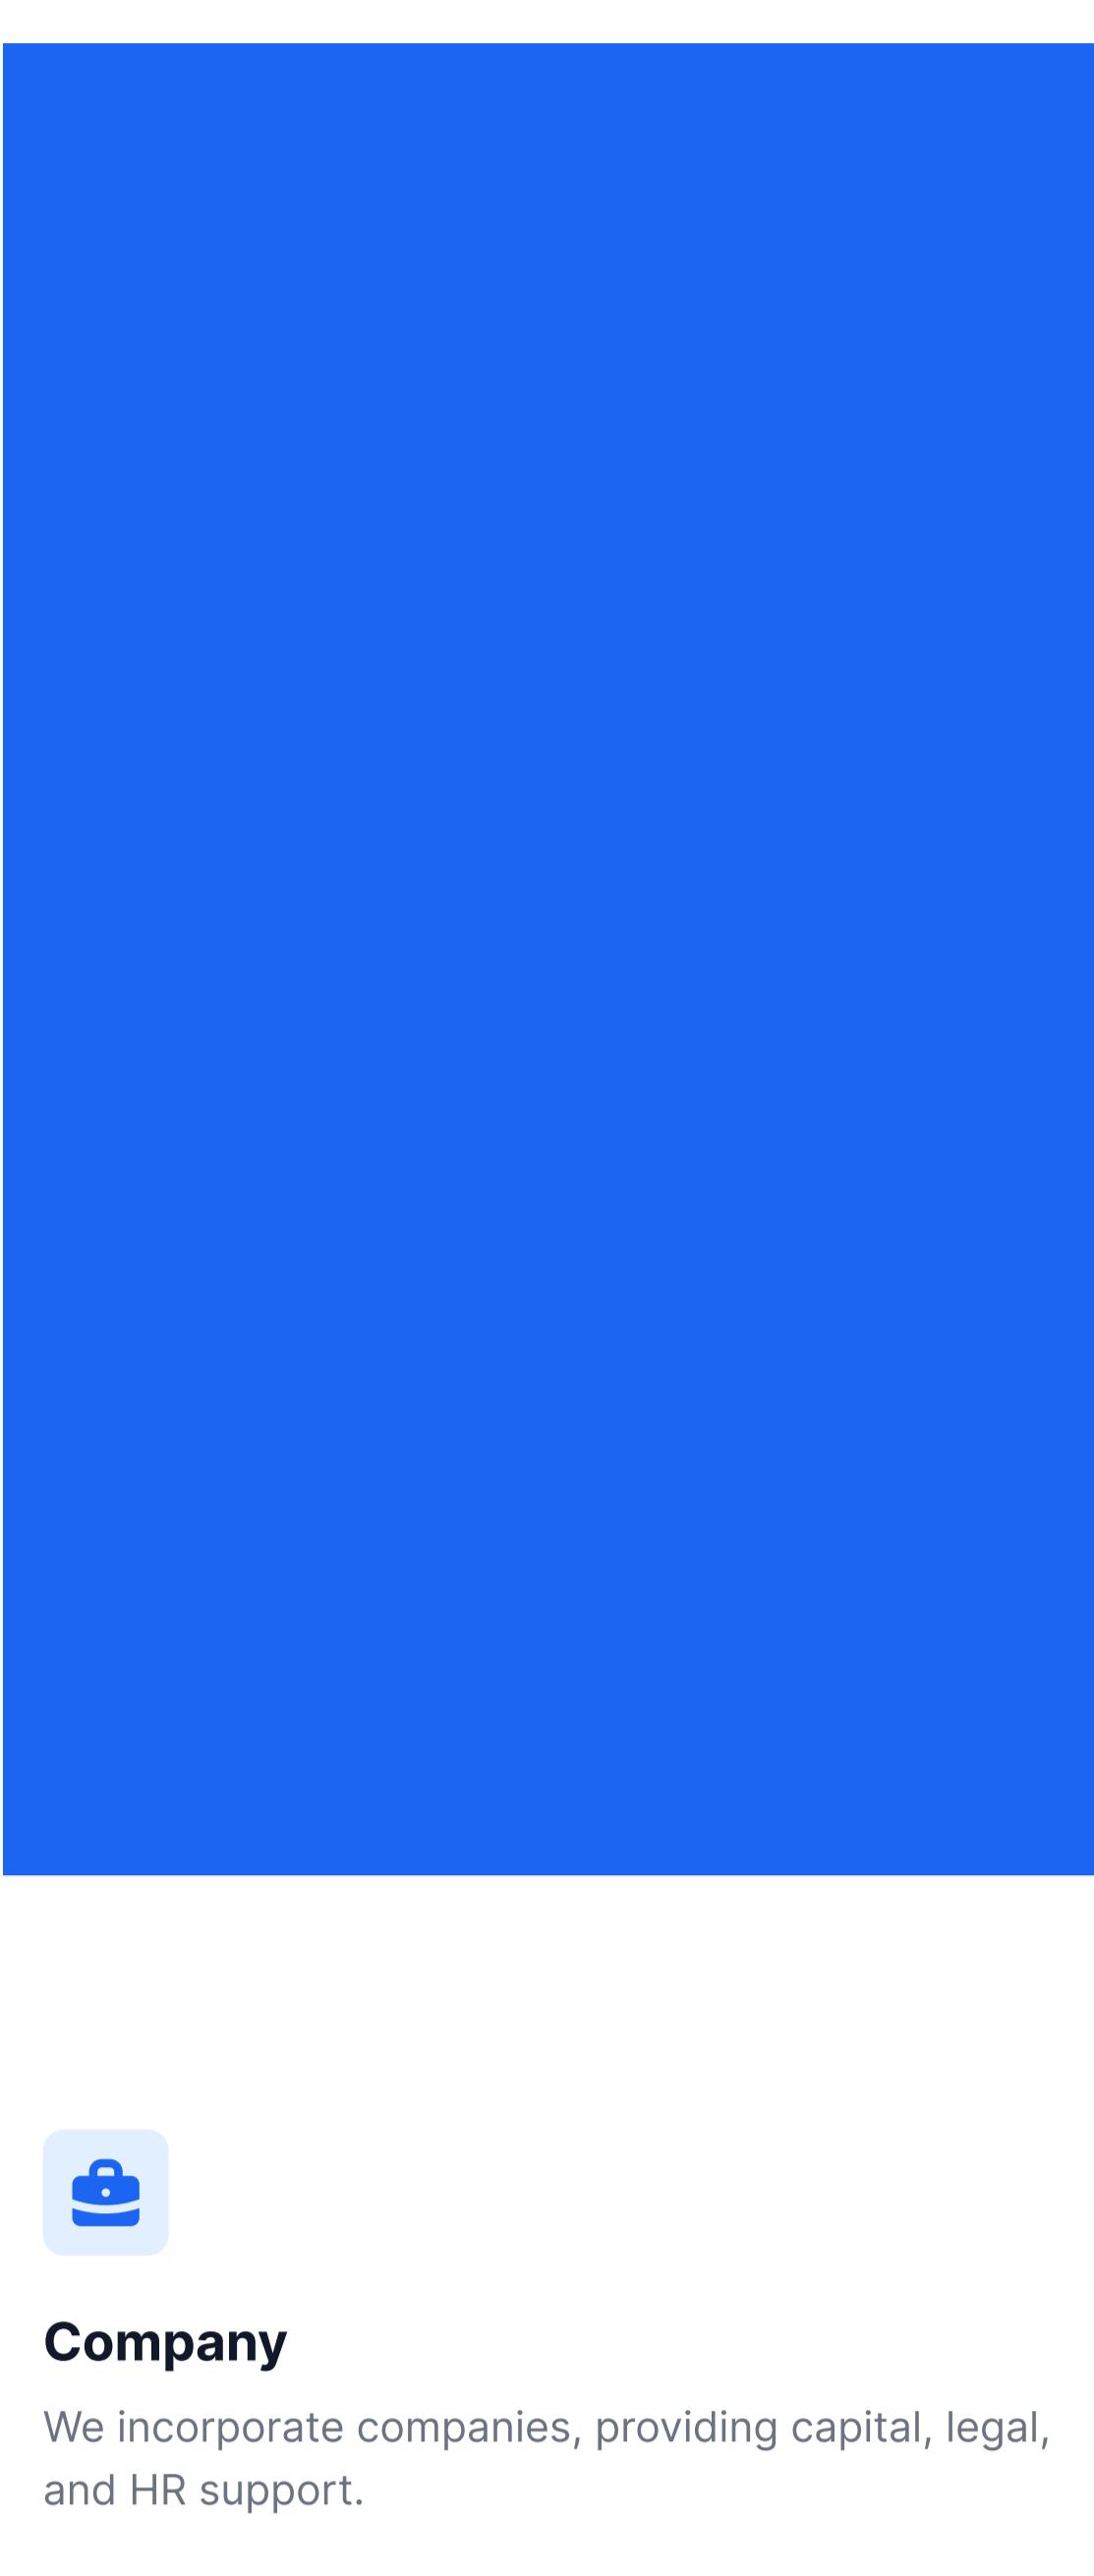

Become a Founder

Join CyGO Entrepreneurs as an Entrepreneur-in-Residence to create the future of cybersecurity with us.

[Apply Now →](#)

Join "Cyber Builders"

As a security practitioner or cybersecurity product and service builders, we welcome your expertise and views.

[Subscribe to Cyber Builders Newsletter](#)

We are co-founders

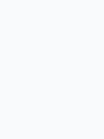

We are a team. We will work with you daily.

We are your new partners. We are your co-founder.

[Learn more >](#)

Ideation

We collect trends, identify practitioners' pain points, and generate new product ideas. We partner with Founders to validate the best ideas.

Product

Our product team build with Founders to build a Minimum Awesome Product (MAP) focusing on delighting User Experience

Company

We incorporate companies, providing capital, legal, and HR support.

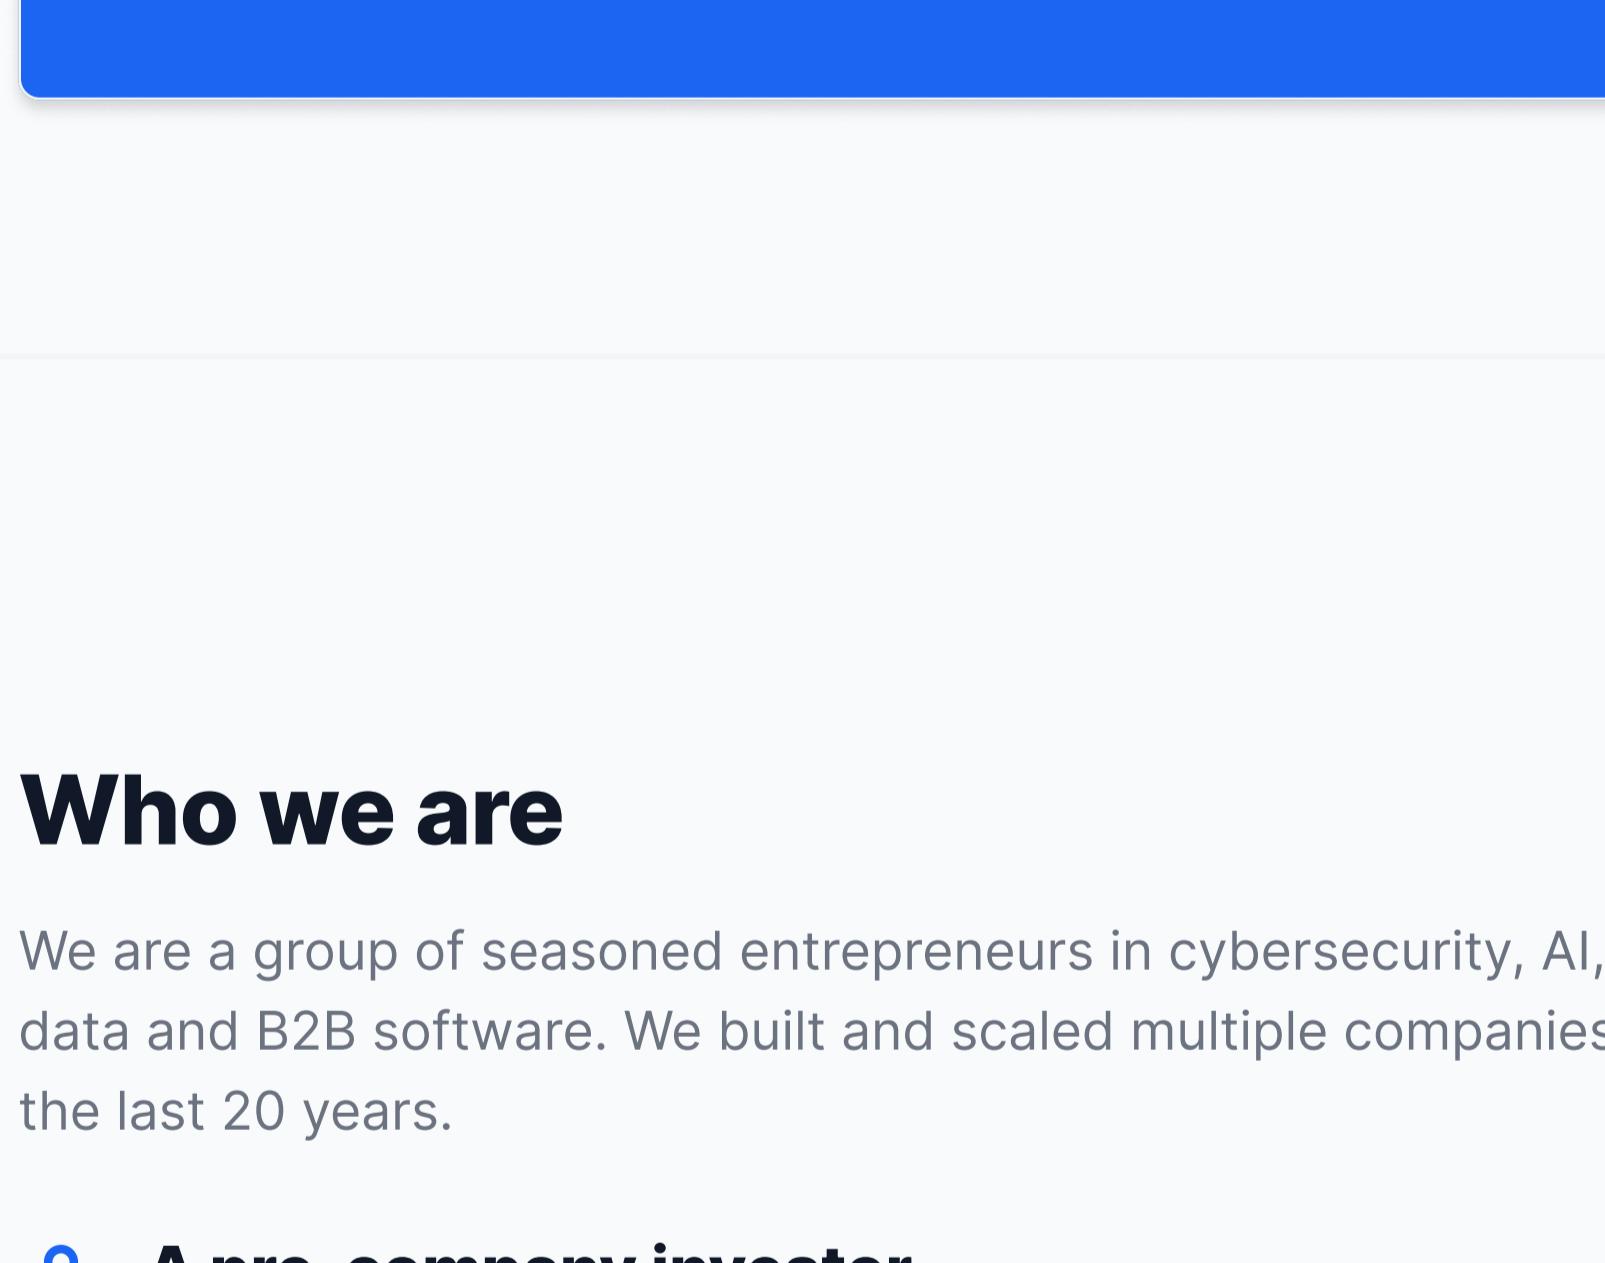

Business

We scale the business with our European wide sales and marketing playbook in cybersecurity

We believe in New Security

Malicious actors threaten the sustainability of our economy, our democracies, our jobs, and our privacy. Unfortunately, too many organizations lack resilience, detection, and protection against these threats.

We need new, innovative cybersecurity products and services that are easy to use and implement by IT and security practitioners. We need more Cyber Builders.

[Read our Manifesto >](#)

Be a Cyber Builder

We won't build great products without close interaction with security practitioners.

"Le Club" is our community of Cyber Builders working as security professionals at end users, system integrators, or consulting companies.
